Rocket Pod

Range	Short -	Med. 9-12	Long -
Target Number (TN)	-	9	-
Indirect fire rocket launcher. Launches 3 rockets per firing action at a single target zone in range. A hit indicates a rocket has hit the target zone, and gets to attack the target with a TN6 projectile attack, causing 1d12 damage. A miss indicates a scatter roll to determine to which adjacent zone the shot scatters. These rockets are not "smart"; they explode on impact and do not differentiate between friend and foe. Rocket Pods may not be put on opportunity fire. Separate upgrades may be applied to individual rockets in a 3 shot spread, if desired, but may not be combined in one rocket.
